About Me

I am learning frontend development using HTML, CSS, and JavaScript.

Skills

HTML CSS JavaScript

My Projects

Weather App

A real-time weather application that fetches current weather data using an API. It displays temperature, humidity, and weather conditions based on user location.

Technologies: HTML, CSS, JavaScript, API

[View Project](#)

Waste Management System

A web-based system designed to manage waste collection, track waste categories, and improve waste management efficiency.

Technologies: PHP, MySQL, HTML, CSS

[View Project](#)

Banking System

A simple banking system that allows users to create accounts, deposit and withdraw money, and view transaction history.

Technologies: PHP, MySQL, JavaScript

[View Project](#)
